Impact Socketry

2025 Version

At Lloyd & Jones, we proudly source our impact sockets from Impact Socket Supplies UK – a trusted name in the industry.

We chose them because they share our passion for progress. With a constant flow of innovative tools designed to match the ever-evolving demands of the trade, they stay one step ahead. Through ongoing research and a results-driven approach, their impact sockets and complementary products don't just meet expectations – they exceed them. They never stop raising the bar, always looking for smarter, stronger, and better solutions.

Every product is built to thrive in tough, industrial environments. Each impact socket is made from special high-performance steel, for exceptional strength. This uncompromising craftsmanship ensures our sockets perform flawlessly at every level of industry.

Manufactured to precise tolerances, exceptionally durable, and meeting international quality standards, these tools are built for those who demand the very best.

All sockets feature:

- Manufactured from Cr-Mo steel with a chemically blacked finish
- Socket size clearly etched on the side of the socket
- Manufactured to DIN3121 and 3129
